

BDSM goes Vanilla

Different Strokes takes BDSM mainstream

Being South Africa's youngest and most sought after professional dominatrix since 2005, and owner of Different Strokes, Miss Paige excels in dealing with the hidden perversities of BDSM in a caring, fun and understanding manner.

Stepping away from the corporate sector, she made it her mission to learn everything within the BDSM sector, so as to offer her clients the best kind of service within their sessions. Capturing a niche market for quality BDSM equipment, at an affordable price, Different Strokes came into being in 2011.

Through Different Strokes, Miss Paige is now dedicated to teaching people the intricacies of the BDSM lifestyle, to both the mainstream and lifestyle audience alike.

Active in the BDSM community as a mentor, teacher, equipment supplier and mistress, she is experienced with most aspects of physical and psychological dominance and sadism. A sometimes submissive, Paige has walked the tightrope of pleasure and pain and is dedicated to answering all the questions surrounding sensual, erotic pain and pleasure from both sides of the lifestyle.

Paige started her BDSM mentorship and coaching program over three years ago and her main focus and that of Different Strokes has been encouraging people to explore other bedroom parameters with their partners, with safety, consent and open communication being at the forefront.

Working with a committed team of experts within the BDSM community, Paige is passionate about what she does and encourages an ethos of sharing, learning, support and communication to help people develop a healthy sex life whether they are mainstream venturing into a BDSM relationship or are lifestyle players who need additional coaching.

Although having qualifications in marketing and public relations and holding various management positions in the corporate world prior to becoming a professional dominatrix, Paige's true calling and passion is that of coaching healthy sexual pursuits and mentorship to people who are too afraid or feel they don't have the tools available to venture into an alternative sexual lifestyle.
